**1.** The Plant Protection Act (Revised Statutes, 1925, R. S., c. 72, chapter 72), as enacted by the act 19 George V, chapter 25, section 1), is amended by adding thereto, after section 11 thereof, the following section:

**“11a.** When an insect or a disease becomes a menace to the crops in a whole region, the Lieutenant-Governor in Council on the recommendation of the Minister may order the quarantining, in whole or in part, of such territory, municipality, township or county as he shall determine.

It shall clearly state the boundaries of the territory affected, the cause or causes occasioning the order, the crop or crops to which it relates, the preventive measures and means of controlling to be applied and which are compulsory, and the conditions on which a certificate of temporary release from quarantine may be issued by the Minister after the satisfactory performance of the measures prescribed; and it shall specify any other point relating to the suppression of the plague or to the proper carrying out of the quarantining. The quarantining shall cease after notice to that effect signed by the Minister has been published in the *Quebec Official Gazette*.”

**2.** This act shall come into force on the day of its sanction.
