

## CHAPTER 134

An Act respecting the corporation of the village of Asbestos

*[Assented to, the 4th of April, 1931]*

**W**HEREAS the population of the village of Asbestos, Preamble.  
which is of about five thousand souls, depends almost entirely for its subsistence on the operating by the Canadian Johns-Manville Company, Limited, of its asbestos mine at that place;

Whereas, to meet foreign competition, the company must reduce its cost price to a minimum and has acquired therefor a considerable amount of land belonging to individuals, in order to operate on the surface, which is less expensive than operating in depth, as it is obliged to do at present;

Whereas the company states that if it cannot operate at reduced cost, it will probably have to suspend its operations wholly or in part, which would cause much harm to the corporation of the village of Asbestos and its inhabitants;

Whereas the lands which the company so acquired are situated on the eastern side of the place where it now operates and include nearly ninety-nine per cent of the block of land, forming about fifty-five arpents in area, situated between its mine and St. Aimé street and bounded on the north, east and south by St. Aimé street and on the west by the western line of St. George and Nicolet streets;

Whereas the company was unable to acquire the remainder of such land by private agreement;

Whereas the company is ready to purchase from the corporation of the village of Asbestos the streets and municipal works situated in the portion of the above-described territory and also to cede free of charge to the said corpora-

tion an extent of land at least equal, situated to the east of St. Aimé street, between Roi street and the prolongation of Manville street, to open new streets thereon, thus securing the development of the village at the most suitable place;

Whereas the corporation of the village of Asbestos cannot close the existing streets in this portion of the above-described territory without exposing itself to proceedings for damages on the part of interested owners, and the company on its part cannot operate such portion of territory without owning the whole;

Whereas it is in the interest of the corporation of the village of Asbestos and of its inhabitants that the company become, within the shortest possible delay, owner of the whole territory above-described, and that new streets be opened in the territory situated east of St. Aimé street between Roy street and the prolongation of Manville street;

Whereas, to carry out this plan, it is necessary that the corporation of the village of Asbestos obtain the power to acquire, by private agreement or by expropriation, all the land, mining or other rights of what nature soever, situated within the territory described in section 1 of this act, and not yet belonging to the company, and then to transfer to the company, for the amount which it disbursed, what it thus acquires;

Whereas the corporation of the village of Asbestos has, by its petition, prayed for the passing of an act for the above purposes, and it is expedient to grant its prayer;

Therefore, His Majesty, with the advice and consent of the Legislative Council and of the Legislative Assembly of Quebec, enacts as follows:
