CHAP. 80

An Act to permit the school commissioners of the school municipality of Côte des Neiges to make an annual valuation roll.

[Assented to 21st December, 1912]

WHEREAS the school commissioners for the school municipality of Côte des Neiges, in the district of Montreal, have by their petition represented:

That the general law which says that the municipal valuation of properties shall serve as a basis for the assessments imposed by school corporations, causes great injustice to be done them owing to the fact that by the annexation of Notre Dame des Neiges, now Mount Royal ward, to the city of Montreal under the act 1 George V (2nd session) chapter 60, section 2, lands under cultivation in the said school municipality are valued much below their value, namely at a uniform rate of one hundred dollars per acre;

That such agreement was incorporated in an act amending the charter of Montreal and was followed when the municipal valuation roll was made;

That the result is that lands under cultivation are now not valued at their real value but at a much lower one;

That the said school municipality has to incur considerable debts to provide for the needs of education, build school-houses, academies and for other purposes and, owing to such valuation by the city of Montreal, is deprived of the necessary revenue for
