Whereas by the said by-law dated the 11th of August, 1902, the said council has been moreover authorized to issue 125 debentures of (\$1,000.00) one thousand dollars each, in order to secure part of the money necessary to the construction of the said system of aqueduct and sewers ;

Whereas the said council has not yet, to this date, issued debentures to provide the town with a system of aqueduct and sewers for more than (\$225,000.00) two hundred and twenty-five thousand dollars, and whereas it wishes to issue more debentures without delay, as aforesaid, to contract a new loan

to the amount of (\$75,000.00) seventy-five thousand dollars, and whereas it deems advisable to effect the said loan for the above mentioned purposes ;

Whereas, nevertheless, the council does not intend to spend more than (\$50,000.00) fifty thousand dollars for the works of the present year (1906) nineteen hundred and six ;

It is ordered and enacted by the said council, and the said council orders and enacts, by by-law, as follows, that is to say :

BY-LAW

The council of the town of Fraserville, hereinafter called " The Council ", is authorized :

2. The said council is authorized, in order to refund the costs of the continuation of the said system of aqueduct and sewers, to borrow, either in one or several loans, either at one or at different times, from one or several persons, corporations or financial institutions whatever, a sum not exceeding (\$75,000.00) seventy-five thousand dollars.

2a. Nevertheless, it shall be unlawful for the council to spend more than (\$50,000.00) fifty thousand dollars for the works of the present year (1906) nineteen hundred and six.

3. The said council is authorized to subscribe to one or several obligations, bonds, or debentures, for those loans, reimbursable in (27) twenty-seven years, with a sinking fund of not less than (1%) one per cent per annum.

5. Each of said debentures shall be payable in (27) twenty-seven years, from the (1st) first of May (1906) one thousand nine hundred and six, and shall bear interest at a rate not exceeding ($4\frac{1}{2}\%$) four and a half per cent a year.

6. The said interest, which shall be computed only from the date of the sale or delivery of the said debentures, shall be payable semi-annually, the first day of each month of May and November of each year, at the office of the secretary-treasurer of the town of Fraserville.

7. Coupons to the amount of the half yearly interest, signed by the mayor, countersigned by the secretary-treasurer under

the seal of the town, and payable to the bearer at their maturity shall be annexed to each debenture.

8. At the time of payment, the coupons shall be handed to the secretary-treasurer, and the possession by such officer of any coupons, shall be *prima facie* evidence that the half yearly interest has been paid.

9. The council is authorized to decide, by resolution, the sale or investment of said debentures, and to pay a reasonable commission for the investment of said debentures.

10. To provide for the payment of the yearly interest and help the reimbursement of the said loan of \$75,000.00 seventy-five thousand dollars, in (27) twenty-seven years, a special annual tax of (\$4,125.00) four thousand, one hundred and twenty-five dollars based on the valuation roll actually in force and on those which may subsequently come into force, shall be imposed during the said period of (27) twenty-seven years, on all real estate within the limits of the town of Fraserville liable to taxation.

11. Previous to making of the special annual collection roll for the said tax, the net revenues given by the working of the said system of aqueduct and sewers and collected to the date of the making of the said roll, shall be, nevertheless, deducted.

12. To cover the amount of the said interest and sinking fund, the case occurring, it shall be lawful for the council to take from the ordinary revenues of the town the sum needed, on the condition, nevertheless, of mentioning it specially in the account of the administration of the aqueduct.

13. The collection roll for the said tax shall be prepared for the required amount, as aforesaid, each year, at the time fixed by the council by a resolution to that effect.

14. The said special tax shall become due and payable in the same manner as the other municipal taxes, each year, on the first of October, until the said loan and interest thereon are completely reimbursed.

15. The secretary-treasurer shall keep a detailed, distinct and separate account of the funds effected to the payment of said debentures and also of the costs of the construction, maintenance and working, and revenues and expenses of the said system of aqueduct and sewers.

16. In case the said special tax or the revenues of the aqueduct should represent, in any year whatever, more than the amount required to cover the interest and the annuities for the said year, it shall be lawful for the council to effect the surplus of the said sum to any purpose whatever.

17. All the clauses of the by-law of the 11th of August, 1902, and its amendment of the 19th of October, 1903, not incompatible with those of the present by-law shall remain

in force and shall be taken into consideration by the council during the continuation of the work to be done for the system of aqueduct and sewers.

18. The present by-law shall come into force after having been adopted by this council, approved by the majority, in number and in value, of the electors who, being proprietors in the town, shall have voted according to law, and published according to law.

19. In the event of a discrepancy between the French version and the English version of the present by-law, the former shall prevail.
