

## CAP. LIX.

An Act to authorize the Provincial Board of Notaries to admit, after examination, Edouard Bégin, as a Notary.

[Assented to 28th January, 1874.]

## Preamble.

**W**HEREAS Edouard Bégin, of the city of Quebec, in this province, law student, has, by petition, represented that he was admitted to the study of the notarial profession on the twenty-eighth of September, 1865; that he was duly bound by indentures unto Mtre. H. Garon, notary, on the thirtieth day of August, 1865, and that he has transferred the said indenture to Mtre. J. B. C. Hébert, on the 9th September, 1865; that he has studied the said notarial profession regularly and without interruption with the said Mtres. Garon and Hébert; and that then he was under the necessity of interrupting his regular studies of the notarial profession, until the first day of May, and from that moment he has continued to study the said notarial profession regularly and without interruption under the said J. B. C. Hébert, and whereas by inadvertence the continuation of his indenture of study is dated only on the 17th September, 1870, when it should have been dated on the 1st May, 1870; he hath by the said petition prayed that the provincial board of notaries, upon due and satisfactory examination, be authorized to admit him to practice as a notary; whereas the said board of notaries recommends that such authorization be granted to them; Therefore, Her Majesty, by and with the advice and consent of the Legislature of Quebec, enacts as follows:

Admission of  
Ed Bégin as a  
notary after  
examination.

**1.** The provincial board of notaries, upon due proof to his satisfaction, after he shall have undergone the examination required from candidates for admission to the said profession, that the said Edouard Bégin has a sufficient knowledge of law and of the practice as a notary, may admit the said Edouard Bégin to practice as a notary, any law or usage to the contrary notwithstanding.
