Who being come thereto.

The Honorable *Félix Gabriel Marchand* said :

“ May it please Your Honor, the Legislative Assembly have elected me to be their speaker, though I do not feel very able to discharge the important duties assigned me. If in the performance of those duties, I should at any time fall into error, I pray that the fault be imputed to me, and not to the Legislative Assembly, whose servant I am, and who through me the better to enable them to discharge their duty to the Queen and country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to Your Honor’s person at all seasonable times and that their proceedings may receive from Your Honor the most favorable interpretation.”

The Honorable *Speaker* of the Legislative Council said :

Mr. *Speaker*,

“ I am commanded by His Honor the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Legislative Assembly to Her Majesty’s person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and, upon all occasions, will recognize and allow their constitutional privileges.

I am commanded also to assure you that the Legislative Assembly shall have ready access to His Honor upon all seasonable occasions, and that their proceedings, as well as your words and actions will constantly received from him the most favorable construction.”

His Honor the Lieutenant Governor was then pleased to open the session by a gracious speech from the Throne to both Houses.

*Honorable Gentlemen of the Legislative Council,*

*Gentlemen of the Legislative Assembly,*

In officially opening, in Her Majesty’s name, the first session of the seventh Legislature of this Province, I tender you a most cordial welcome and, at the same time, congratulate you upon the remarkable order which prevailed during the last general elections. I trust that

the discussions and contests to which these elections gave rise have left no unpleasant feelings in the minds of any of you and that you are all well disposed to perform your official duties conscientiously and patriotically.

Proposals of a confidential nature have been made for the conversion of the debt authorized by the act of 1888 ; but my Government has deemed it prudent not to decide upon anything definitively before amending this act, which seems incomplete in some respects. I hope that the amendments which will be submitted to you in this connection will meet with your approval.

The loan authorized in 1887 has not sufficed to meet the obligations of the floating debt of that time and the new railway subsidies voted in 1888, so that you will be requested to authorize the issue of new debentures, both for the purpose of meeting these old obligations and of repaying the advances made in connection with :—the Jesuits' Estates' matter ;—old railway subsidies ;—the construction of iron bridges ;—certain colonization works ;—and to pay :—the amount lawfully due on the claims respecting the construction of the legislative buildings and the court house in Quebec ;—the amounts required for the work, already authorized, of building a prison and enlarging the court house in Montreal ;—the construction of fire proof vaults and the gross repairs which have become urgently necessary in the court houses of the rural districts ;—the construction, also already authorized, of two new court houses and gaols in the counties of Ottawa and Pontiac ;—the construction or purchase of one or more lunatic asylums, at the proper time before the expiration of the present farming out contracts ;—new railway subsidies which will be asked of you and which are indispensable for the crowning of the policy sanctioned by previous legislatures ;—the maintenance of free night schools established for the education of farmers and workmen ;—the increase of the subsidies for elementary schools for the purpose of securing higher salaries to teachers and more satisfactory attendance on the part of the pupils ;—the gross repairs which are being actually made to the Jacques-Cartier and McGill Normal schools at Montreal ;—the rebuilding of the Laval Normal School at Quebec, which has become necessary ;—the engagements entered into last session respecting the construction of a bridge connecting both banks of the St. Lawrence, at or near Quebec ;—the stoning of roads in country parts ;—the abolition of tolls on bridges and turnpikes ;—the establishment of a central agricultural school to meet present requirements ;—and finally several other items of expenditure rendered necessary by circumstances and chargeable to capital.

If the necessity of a loan is a matter of regret, it is, however, satisfactory to be able to state that it is required, for the most part, for public works which increase the value of property in this Province,

and also, at the same time, its general prosperity and constitute permanent investments of a nature to develop our national resources and wealth.

This loan, which you will be called upon to authorize for all these objects of paramount importance, will add to the amount of interest to be paid annually. My Government will ask you to increase the ordinary revenue to meet this additional expense by raising the price of licenses for the sale of intoxicating liquors, by levying a special duty on the working of our mines and assuring other new revenues necessary for maintaining the equilibrium between the ordinary receipts and expenditure.

I am happy to inform you that the law respecting agricultural merit has been carried out in a satisfactory manner and already produces excellent results by encouraging farmers to adopt the best modern methods ; and that the lots granted by law to the fathers and mothers of twelve living children will soon be distributed to the many parties interested.

I am also happy to tell you that the members of the Protestant Committee of the Council of Public Instruction have accepted the sum voted by the Legislature in favour of the minority in this Province, as compensation in connection with the settlement of the question of the Jesuit's Estates : and I have reason to believe that the acceptance, on the part of the authorized representatives of the minority in this Province, will have the effect of putting an end to all agitation on the subject.

Preliminary surveys, carefully made by competent engineers, have shown that the construction of a bridge, connecting both banks of the river St. Lawrence, at or near Quebec, was not only possible but even desirable : and it is to be hoped that the Capital of the Province will not be deprived of this incontestable advantage owing to the want of the necessary assistance either from the Corporation of the City of Quebec or the Federal Government, in accordance with the statute of last session, 53 Victoria, chapter one hundred and eleven.

Numerous and important district exhibitions were held this fall in several places in the Province and gave the best results : you will be called upon to vote a special credit to further encourage these exhibitions and thus create healthful emulation among our agricultural population.

The application of the statute of last session, respecting the increase in the salaries of district magistrates has, in accordance with the declarations of my advisers, been limited to the two district ma-

---

gistrates of the City of Montreal. But, many of the present salaries of the district magistrates being insufficient, you are called upon to give your opinion upon the matter and state whether several of these salaries should not, under the circumstances, be increased.

The act of last session. (53 Victoria, chapter 41), authorizing an agreement to be entered into with any religious community of men or women, or any other institutions, or with any persons, for the keeping, maintenance, support and treatment of idiots, provided that the cost of each patient does not exceed fifty dollars per annum, has already begun to be carried out and will, I hope, produce excellent results, as well for these unfortunates as for the finances of the Province : and the Montreal institution, known as the "Protestant Hospital for the Insane, incorporated by the act of this province 44-45 Victoria, chapter 53, having obtained the certificate required by law and offered to receive insane patients in whom it is specially interested, resolutions will be submitted to you to authorize an arrangement for that purpose ; under the express condition, however, that the State shall assume and retain the absolute control of the medical service ; a condition which shall be, without exception, imposed in all contracts that may be made in future in this connection.

*Gentlemen of the Legislative Assembly,*

The public accounts, as well as the supplementary estimates for the current year and the usual estimates for the next year, will, without delay, be laid before you.

*Honorable Gentlemen of the Legislative Council,*

*Gentlemen of the Legislative Assembly,*

Several other bills also of general interest will be submitted to you, on the following subjects, in particular : the Court of Queen's Bench sitting in appeal ; Public Instruction ; the lots granted to fathers or mothers of twelve living children ; the inspection of factories and the protection of workmen in certain cases.

I pray that you may give to these important matters the consideration they deserve, and that your deliberations will be conducted with calmness, be inspired with patriotism, and be productive of good results for the Province.

The Legislative Assembly then withdrew and it pleased His Honor the Lieutenant Governor to retire.

The Honorable Mr. *Garneau* presented a Bill (A) respecting Agriculture.

The said Bill was read for the first time *pro formâ*.

The Honorable *Speaker* reported the speech of His Honor the Lieutenant Governor from the Throne and the same was then read by the clerk.

On motion of the Honorable Mr. *Garneau*, seconded by the Honorable *D. A. Ross*, it was

*Ordered*, That the speech of His Honor the Lieutenant Governor be printed in both languages for the use of members.

On motion of the Honorable Mr. *Garneau*, seconded by the Honorable *D. A. Ross*, it was

*Ordered*, That this House do take into consideration the speech of His Honor the Lieutenant Governor, on Friday next.

On motion of the Honorable Mr. *Garneau*, seconded by the Honorable *D. A. Ross*, it was

*Ordered*, That all the Legislative Councillors present during the session, be appointed a committee to consider of the orders and customs of this House and the privileges of Parliament, and that the said committee have leave to sit in this House when and as often as they please

Then, on motion of the Honorable Mr. *Garneau*, the House adjourned until Friday, at 3 o'clock P. M.

PRAYERS.

The following petitions were severally brought up and laid on the table :

By the Honourable Mr. *Wood*, of the International Advent Christian Conference

By the Honourable Mr. *Prévost*, of the Roman Catholic Board of School Commissioners of the City of Montreal ;

By the Honourable Mr. *Ward*, of the Mayor and Aldermen of the City of Montreal ;

By the Honourable Mr. *Archambeault*, of Dame Angélique Lapierre, *ès-qualité*.

The order of the day was read for taking into consideration the speech of His Honour the Lieutenant-Governor, from the Throne, at the opening of the session.

The Speech was read by the clerk.

The Honourable Mr. *Archambeault*, seconded by the Honourable Mr. *Ward*, proposed that :

That an humble address be presented to His Honour the Lieutenant Governor to thank him for his gracious speech at the opening of the first session of the seventh Legislature of this Province, in which he tendered us a most cordial welcome and at the same time, congratulated us upon the remarkable order which prevailed during the last general elections, and in which he further declared that he trusted that the discussions and contests to which these elections gave rise have left no unpleasant feeling in the minds of any of us and that we are all well disposed to perform our official duties conscientiously and patriotically, and to assure His Honour.

1. That we learn with satisfaction from His Honour that proposals of a confidential nature having been made for the conversion of the debt authorized by the act of 1888, his Government has deemed it prudent not to decide upon anything definitively before amending that act, which seems incomplete in some respects, and we, with His Honour, hope that the amendments which will be submitted to us in this connection will meet with our approval.

2. That learning from His Honour, that the loan authorized in 1887, has not sufficed to meet the obligations of the floating debt of that time and the new railway subsidies voted in 1888, we can assure His Honour that we will devote all our attention to the request

to be made to us to authorize the issue of new debentures, both for the purpose of meeting these old obligations and of repaying the advances made in connection with :—the Jesuits' Estates' matter ;—old railway subsidies ;—the construction of iron bridges ;—certain colonization works :—and to pay :—the amount lawfully due on the claims respecting the construction of the Legislative buildings and the court house in Quebec ;—the amounts required for the work, already authorized, of building a prison and enlarging the court house in Montreal ;—the construction of fire-proof vaults and the gross repairs which have become urgently necessary in the court houses of the rural districts ;—the construction, also already authorized, of two new court houses and gaols in the counties of Ottawa and Pontiac ;—the construction or purchase of one or more lunatic asylums, at the proper time before the expiration of the present farming-out contracts ;—the new railway subsidies which will be asked of us and which are indispensable for the crowning of the policy sanctioned by previous Legislatures ;—the maintenance of free night-schools established for the education of farmers and workingmen ;—the increase of the subsidies for elementary schools for the purposes of securing higher salaries to teachers and more satisfactory attendance on the part of the pupils ;—the gross repairs which are being actually made to the Jacques-Cartier and McGill Normal schools at Montreal ;—the rebuilding of the Laval Normal School at Quebec, which has become necessary ;—the engagements entered into last session respecting the construction of a bridge connecting both banks of the St. Lawrence at or near Quebec ;—the stoning of roads in country parts ;—the abolition of tolls on bridges and turnpikes ;—the establishment of a central agricultural school to meet present requirements ;—and finally several other items of expenditure rendered necessary by circumstances and chargeable to capital.

4. That we admit with His Honour that the loan, which we will be called upon to authorize for all these objects of paramount importance, will add to the amount of interest to be paid annually and that we can assure His Honour that we will carefully consider any demand which His government may make upon us to increase the ordinary revenue to meet this additional expense by raising the price of licenses for the sale of intoxicating liquors, by levying a special duty on the working of our mines and assuring other new revenues necessary for maintaining the equilibrium between the ordinary receipts and expenditure.

---

5. That we are happy to be informed by His Honour that the law respecting agricultural merit has been carried out in a satisfactory manner and already produces excellent results by encouraging farmers to adopt the best modern methods : and that the lots granted by law to the fathers or mothers of twelve living children will soon be distributed to the many parties interested.

lent results, as well for these unfortunates as for the finances of the Province : and we are happy to learn that the Montreal institution known as the "Protestant Hospital for the Insane," incorporated by the act of this province 44-45 Victoria, chapter 53, having obtained the certificate required by law and offered to receive insane patients in whom it is specially interested, resolutions will be submitted to us to authorize an arrangement for that purpose, under the express condition, however, that the State shall assume and retain the absolute control of the medical service, a condition which shall be, without exception, imposed, in all contracts that may be made in future in this connection.

We, Her Majesty's loyal and faithful subjects, the Legislative Council of the province of Quebec, in provincial Legislature assembled humbly thanking Your Honour for your gracious speech at the opening of the first session of the seventh Legislature of this Province, in which you tendered us a most cordial welcome and, at the same time, congratulated us upon the remarkable order which prevailed during the last general elections, and in which you further declared that you trusted that the discussions and contests to which the elections gave rise have left no unpleasant feeling in the minds of any of us, and that we are all well disposed to perform our official duties conscientiously and patriotically.

We learn with satisfaction from Your Honour that proposals of a confidential nature having been made for the conversion of the debt authorized by the act 1888, his Government has deemed it prudent not to decide upon anything definitively before amending that act, which seems incomplete in some respects, and we with, Your Honour, hope that the amendments which will be submitted to us in this connection will meet with our approval.

Learning from Your Honour, that the loan authorized in 1887, has not sufficed to meet the obligations of the floating debt of that time and the new railway subsidies voted in 1888, we can assure Your Honour that we will devote all our attention to the request to be made to us to authorize the issue of new debentures, both for the purpose of meeting these old obligations and of repaying the advance made in connection with :—the Jesuit's Estates' matter ;—old railway subsidies ;—the construction of iron bridges ;—certain colonization works ;—and to pay :—the amount lawfully due on the claims respecting the construction of the Legislative building and the court house in Quebec ;—the amounts required for the work, already authorized, of building a prison and enlarging the court house in Montreal ;—the construction of fire-proof vaults and the gross repairs which have become urgently necessary in the court houses of the rural districts ;—the construction, also already authorized, of two new court houses and gaols in the counties of Ottawa and Pontiac ;—the construction or purchase of one or more lunatic asylums, at the proper time before the expiration of the present farming-out contracts ;—the new railway subsidies which will be asked of us and

which are indispensable for the crowning of the policy sanctioned by previous Legislatures :—the maintenance of free night-schools established for the education of farmers and workingmen ;—the increase of the subsidies for elementary schools for the purposes of securing higher salaries to teachers and more satisfactory attendance on the part of the pupils ;—the gross repairs which are being actually made to the Jacques-Cartier and McGill Normal schools at Montreal ;—the rebuilding of the Laval Normal School at Quebec, which has become necessary ;—the engagements entered into last session respecting the construction of a bridge connecting both banks of the St. Lawrence at or near Quebec ;—the stoning of roads in country-places ;—the abolition of toll on bridges and turnpikes ;—the establishment of a central agricultural school to meet present requirements ;—and finally several other items of expenditure rendered necessary by circumstances and chargeable to capital.

If the necessity of a loan is a matter of regret, we admit with Your Honour that it is, however, satisfactory to be able to state that it is required, for the most part, for public works which increase the value of property in this Province, and also, at the same time, its general prosperity and constitute permanent investments of a nature to develop our national resources and wealth.

We admit with Your Honour that the loan, which we will be called upon to authorize for all these objects of paramount importance, will add to the amount of interest to be paid annually and that we can assure Your Honour that we will carefully consider any demand which Your Government may make upon us to increase the ordinary revenue to meet this additional expense by raising the price of licenses for the sale of intoxicating liquors, by levying a special duty on the working of our mines and assuring other new revenues necessary for maintaining the equilibrium between the ordinary receipts and expenditure.

We are happy to be informed by Your Honour that the law respecting agricultural merit has been carried out in a satisfactory manner and already produces excellent results by encouraging farmers to adopt the best modern methods ; and that the lots granted by law to the fathers or mothers of twelve living children will soon be distributed to the many parties interested.

We are further happy to learn that the members of the Protestant Committee of the Council of Public Instruction have accepted the sum voted by the Legislature in favour of the minority in this Province, as compensation in connection with the settlement of the question of the Jesuit's Estates : and that with Your Honour we have reason to believe that this acceptance, on the part of the authorized representatives of the minority in this Province, will have the effect of putting an end to all agitation on the subject.

We learn with pleasure from Your Honour that preliminary surveys, carefully made by competent engineers, have shown that the construction of a bridge, connecting both banks of the river St. Law-

rence, at or near Quebec, was not only possible but even desirable ; and with Your Honour we hope that the capital of the Province will not be deprived of this incontestable advantage owing to the want of the necessary assistance either from the Corporation of the City of Quebec or the Federal Government, in accordance with the statute of last session, 53 Victoria, chapter one hundred and eleven.

We learn with pleasure from Your Honour that numerous and important district exhibitions were held this fall in several places in the Province and gave the best results : and that we will be called upon to vote a special credit to further encourage these exhibitions and thus create healthful emulation among our agricultural population.

That we thank Your Honour for informing us that the application of the statute of last session, respecting the increase in the salaries of district magistrates, has, in accordance with the declarations of his advisers, been limited to the two district magistrates of the city of Montreal, and that many of the present salaries of the district magistrates being insufficient, we will be called upon to give our opinion upon the matter and state whether several of these salaries should not, under the circumstances, be increased.

We learn with interest from Your Honour that the act of last session, (53 Victoria, chapter 41), authorizing an agreement to be entered into with religious communities of men or women, or any other institutions, or with any persons for the keeping, maintenance, support and treatment of idiots, provided that the cost of each patient does not exceed fifty dollars per annum, has already begun to be carried out, and with Your Honour we hope that it will produce excellent results, as well for these unfortunates as for the finances of the Province ; and we are happy to learn that the Montreal institution known as the "Protestant Hospital for the Insane," incorporated by the act of this province 44-45 Victoria, chapter 53, having obtained the certificate required by law and offered to receive insane patients in whom it is specially interested, resolutions will be submitted to us to authorize an arrangement for that purpose, under the express condition, however, that the State shall assume and retain the absolute control of the medical service, a condition which shall be, without exception, imposed, in all contracts that may be made in future in this connection.

We learn with satisfaction from Your Honour that several other bills also of general interest will be submitted to us, on the following subjects in particular : the Court of Queen's Bench, sitting in appeal ; Public Instruction ; the lots granted to fathers or mothers of twelve living children ; the inspection of factories and the protection of workmen in certain cases.

We thank Your Honour for your prayer that we may give to these important matters the consideration they deserve, and that our

deliberations will be conducted with calmness, be inspired with patriotism, and be productive of good results for the Province.

The said message was read as follows :

A. R. ANGERS,

The Lieutenant-Governor of the Province of Quebec transmits to the Legislative Assembly the report of the Queen's Printer, shewing the number of copies of the acts of last session printed and distributed by him to the departments, administrative bodies, officers and other persons to whom they were sent, the number of copies sent to each of them, and in virtue of what authority: the number of copies of the acts of each session remaining, together with a detailed statement of the expenses by him actually incurred for the printing and distribution of the said Acts or Statutes.

The Honourable Speaker laid before the House the Report of the Librarian of the Legislature.

It was read as follows:

To the Honourable the Legislative Council,

The Librarian has the honour to submit the following report on the Library of the Legislature:

The sum of two thousand dollars, voted to the Library for the purchase of books can barely pay for more than the new Canadian publications and allow us to replace books of reference or the Codes, Journals, Statutes, etc., etc., which have been accidentally lost.

The Library is always visited by a large number of people:—since the beginning of last session 17,000 volumes have been lent. This shows what a benefit it is to the public.

It must not, therefore, be imagined that your Library is of but small importance. In some respects it is very well supplied, as several persons, who are engaged in special studies, have assured me.

It has just been enriched with a splendid volume in 4to (*Histoire Bayard*) of which only 125 copies have been struck off, printed on vellum and embellished with chromo-litographs, engravings, etc. The frontispiece, which is handsomely illuminated, bears the following inscription “*Souvenir de France au Canada, Paris, 1890, sous les auspices de Mgr Labelle et de l'Alliance française, offert à la bibliothèque du Parlement Provincial de Québec par M. Gustave de Royon, membre fondateur.*”

The whole respectfully submitted.

At a general quarterly session of the Municipal Council of the said county of Brome, held at the county House in said municipality, on Wednesday the tenth day of the month of December, eighteen hundred and ninety, in conformity with the provisions of the Municipal Code of the Province of Quebec ; at which session were present : the Warden, Azro U. 4<sup>o</sup> It is moved by Councillor Joseph Messier and seconded by Councillor Ezra N. Davis, and resolved :

“ That the Council having learned that a Bill is now before the Legislature of the Province of Quebec, having for object to erect into a distinct and separate municipality the present ecclesiastical parish of St. Alphonse, which includes within its limits a portion of the east part of the township of Farnham in this county, desire to enter its protest against the said Bill becoming law for the following among other reasons :

“ 1<sup>o</sup> Because the said Bill does not provide to which county, Shefford or Brome, the said proposed municipality, shall belong ;

“ 2<sup>o</sup> Because the said east part of the township of Farnham is always a small municipality whose inhabitants are satisfied with the manner in which their municipal affairs have been conducted in the past.

“ 3<sup>o</sup> Because it is unwise and inexpedient to thus alter the existing limits of municipalities without cause or reason, creating confusion and uncertainty when the greatest possible order and certainty should prevail. Carried.

The foregoing is a true and correct extract from the minute book of proceedings of the Municipal Council of the county of Brome, Province of Quebec.
